

A Brilliant Future Awaits You!

Cancer Recurrence Tagging Solution for Healthcare Industry

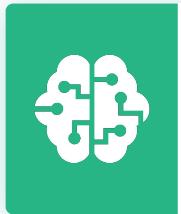

Qnversation AI - Assistive AI for Contact Center

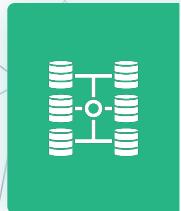

Quantiphy Shopper's Profile for Retail Industry

EXPERIENCE IMPACT READY ARTIFICIAL INTELLIGENCE

Machine Learning and Artificial Intelligence

Custom AI models in computer vision, video intelligence, speech recognition and natural language understanding using state of the art libraries

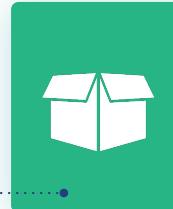

Big Data

Enterprise grade, fully managed intelligent data lake

Platform Engineering

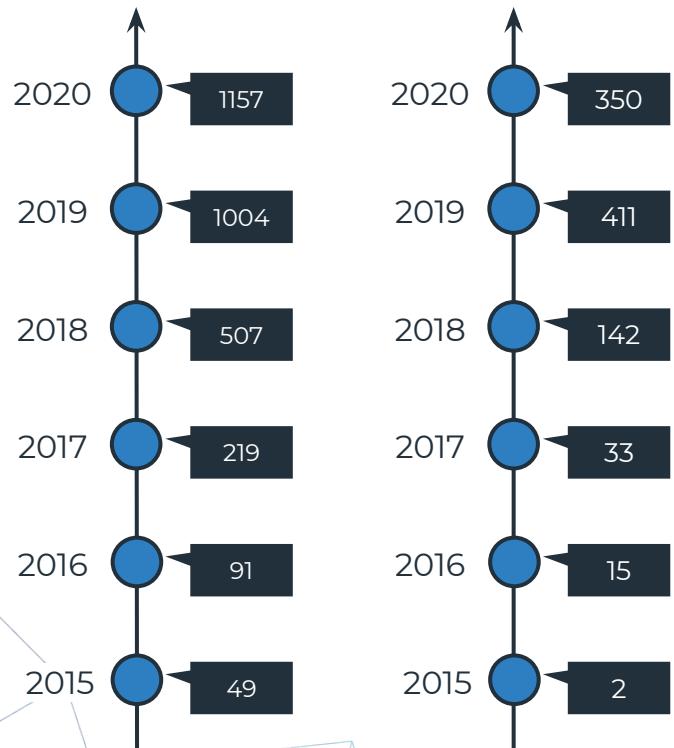

Single click provisioning of cloud resources with most popular open source data science tools for model training and inference

Productized Solutions

Leverage the 'Quantiphi Inside' advantage for your intelligent products

ARE YOU UP FOR IT?

Overall Growth

Campus Growth

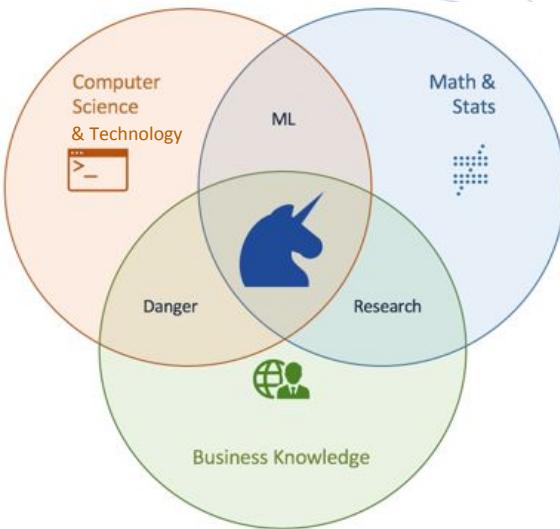

- Exposure to the fastest emerging industry
- Exponential scope to grow
- Only if you like a challenge
- You are a part of deep hiring not mass
- Your learning is key to our success story

HOW CAN YOU ADD VALUE?

Framework Engineer

- Gather and understand data
- Shape and ready data for analysis
- Handle the platform, instances and deployments
- Develop the web service/SDKs/ Applications/ Interface

ML Engineer

- What math to apply to the problem
- Apply machine learning and statistical tools
- Build models
- Communicate insights and solutions to the client

Business Analyst

- Frame Business problem
- Interpret Results
- Orchestrate project
- Communicate insights and solutions
